

Who We Are

Scrum Consult is a professional training and transformation firm dedicated to building high-performing individuals, teams, and organizations. We operate at the intersection of project management, agile methodologies, operational excellence, leadership development, and enterprise transformation.

With a strong presence in Nigeria and growing international engagements, we have supported thousands of professionals and partnered with corporations, startups, and public sector institutions in driving measurable growth and sustainable performance improvement.

Our work extends beyond certification training. We partner with organizations to strengthen internal capabilities, modernize systems, enhance delivery frameworks, and create cultures that adapt confidently to change.

As an internationally recognized Certified Training Provider (CTP), we offer globally recognized certification programs while maintaining a strong focus on practical application and long-term organizational impact.

Our Vision

To become a globally respected transformation partner, enabling organizations and individuals to achieve operational excellence, resilience, and sustainable growth.

Our Vision

To empower individuals and enterprises with the knowledge, global certifications, systems, and mindset required to innovate, adapt, and lead in an increasingly dynamic world.

Who We Serve

Our clients span multiple sectors, including corporate enterprises, multinational organizations, government institutions, startups, technology firms, financial services, healthcare providers, educational institutions, and independent professionals. We engage with executives, managers, team leaders, and aspiring professionals who are committed to strengthening capability and driving meaningful change.

Delivery Approach

Our programs are delivered through flexible and adaptive models designed to meet diverse organizational needs. We provide instructor-led virtual sessions, in-person classroom engagements, corporate onsite programs, blended learning experiences, and long-term coaching partnerships. Each engagement is structured to ensure practical learning, measurable outcomes, and sustainable knowledge transfer.

Measuring Impact

At Scrum Consult, impact is central to everything we do. We evaluate success through participant satisfaction, certification outcomes, knowledge retention, practical workplace application, and measurable improvements in organizational performance. Our focus remains on delivering real transformation, not just theoretical knowledge.

Our Commitment

Scrum Consult is committed to excellence, professionalism, and long-term partnership. We do not simply deliver training programs; we build capacity, strengthen systems, and enable transformation.

Our goal is to ensure that every engagement leaves individuals more confident,

teams more aligned, and organizations more capable of delivering strategic results
